Beyond the Bell Central (BTBC) is funded by a 21st Century Community Learning Center grant and by Central School District. BTBC provides academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools. The program helps students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that can complement their regular academic programs; and offers literacy and other educational services to the families of participating children.
